Allergen Declaration

Chamomile Essential Oil

BIOFORM
NATURE'S FINEST MATERIALS

PRODUCT **Chamomile Essential Oil** · BOTANICAL NAME **Matricaria recutita L. (syn. Matricaria chamomilla)** · DATE **29.09.2026**

PRODUCER

Bioform Ltd

Str. Oreshaka 5, Village Tazha
6160 Pavel Banya, Stara Zagora, Bulgaria
Tel: +359 889 45 05 50
E-mail: sales@bioform.bg

DOCUMENT CONTROL

Allergen Declaration

Version: 1.1
Issued: 29.09.2026
Applies to: Chamomile Essential Oil
Scope: Fragrance allergens, Reg. (EC) No 1223/2009, Annex III
Status: Approved

Indicative values. The values in this document are typical of the product, not the results of a particular batch. For batch-specific documentation and values (certificate of analysis, GC-MS report), contact us at **sales@bioform.bg** or +359 889 45 05 50.

REGULATORY BASIS

CAS	8002-66-2
Regulation	Regulation (EC) No 1223/2009, Annex III, as amended by Commission Regulation (EU) 2023/1545: a listed allergen is named in a finished cosmetic's ingredient list above 0.001 % (leave-on) or 0.01 % (rinse-off). Products that do not meet the amended labelling may be placed on the EU market until 31 July 2026 and made available until 31 July 2028.

ALLERGENS IN THIS PRODUCT (TYPICAL CONTENT, %)

ALLERGEN (INCI)	CAS	TYPICAL %	NOTE
Pinene (alpha + beta) [2]	80-56-8	0.4–1.6	α-pinene up to 0.7 + β-pinene 0.3–0.9
Camphor [2]	76-22-2	0.2–1.2	

Other Annex III fragrance allergens were not reported in the cited analyses (the 15 constituents identified in the cited field study, 85–98 % of the oil). This is not a guarantee of their absence below the level those analyses report.

USING THESE VALUES

Allergen in the finished product (%) = typical content in this material (%) × dosage of this material in the formula (%) ÷ 100. Compare it with the thresholds above to decide whether the allergen must be named on the label. Typical values for this compound, not the analysis of a particular batch: a batch-specific allergen report is available on request with the certificate of analysis.
