### DOCUMENT CONTROL

Product Specification

Version: 1.1  
Issued: 29.09.2026  
Applies to: Frankincense Essential Oil  
Scope: Commercial specification  
Status: Approved

**Indicative values.** The values in this document are typical of the product, not the results of a particular batch. For batch-specific documentation and values (certificate of analysis, GC-MS report), contact us at [sales@bioform.bg](mailto:sales@bioform.bg) or +359 889 45 05 50.

### DESCRIPTION

Frankincense essential oil — distilled from the oleo-gum resin of Boswellia sacra — is one of the most ancient and valued aromatics in the world. Bioform steam distills carefully sourced frankincense resin at our production facility in Bulgaria.

### IDENTITY AND ORIGIN

|                |                                                        |                |                                                                   |
|----------------|--------------------------------------------------------|----------------|-------------------------------------------------------------------|
| Botanical Name | Boswellia sacra Flück.                                 | Appearance     | Clear to pale yellow liquid                                       |
| Common Name    | Frankincense Oil, Olibanum Oil                         | Aroma Profile  | Warm, balsamic, resinous with fresh, slightly citrus top notes    |
| Plant Part     | Oleo-gum resin                                         | CAS Number     | 8016-36-2                                                         |
| Extraction     | Steam distillation                                     | Certifications | EU Organic, USDA NOP, ISO 9001, ISO 22000, Halal, Kosher          |
