DOCUMENT CONTROL

Product Specification

Version: 1.1
Issued: 29.09.2026
Applies to: Rose Alba Essential Oil
Scope: Commercial specification
Status: Approved

Indicative values. The values in this document are typical of the product, not the results of a particular batch. For batch-specific documentation and values (certificate of analysis, GC-MS report), contact us at **sales@bioform.bg** or +359 889 45 05 50.

DESCRIPTION

Rosa alba is a rare white-petalled rose variety cultivated in small quantities in Bulgaria's Rose Valley. The essential oil has a lighter, more delicate character than Rosa damascena — soft, honeylike and sweet, with a refined floral elegance that sets it apart from other rose oils. Bioform cultivates Rosa alba on 15 hectares of certified organic land in the village of Tazha and distils the oil on site within hours of the morning harvest, preserving the full aromatic subtlety of the fresh blossom.

IDENTITY AND ORIGIN

Botanical Name	Rosa alba L.
Common Name	White Rose Oil, Rose Alba Essential Oil
Plant Part	Fresh flower petals
Extraction	Steam distillation
Origin	Bulgaria — Rose Valley, Village Tazha
Cultivation	Certified organic, own plantation (15 ha)
