DOCUMENT CONTROL

Product Specification

Version: 1.1
Issued: 29.09.2026
Applies to: Rose Centifolia Essential Oil
Scope: Commercial specification
Status: Approved

Indicative values. The values in this document are typical of the product, not the results of a particular batch. For batch-specific documentation and values (certificate of analysis, GC-MS report), contact us at sales@bioform.bg or +359 889 45 05 50.

DESCRIPTION

Rosa centifolia — also known as the Cabbage Rose or May Rose — produces an essential oil with a rich, full-bodied floral character and characteristic honeyed sweetness. The multi-petalled blooms yield an aromatic extract of exceptional depth, with lush green facets that distinguish it from other rose species. Bioform cultivates 14 hectares of certified organic Rosa centifolia in the heart of Bulgaria's Rose Valley, steam distilling the freshly harvested petals on site to capture the complete aromatic profile of the living flower.

IDENTITY AND ORIGIN

Botanical Name	Rosa centifolia L.	Appearance	Pale yellow liquid
Common Name	Cabbage Rose Oil, May Rose Oil	Aroma Profile	Rich, sweet, deeply floral, slightly honeyed with green facets
Plant Part	Fresh flower petals	CAS Number	84604-12-6
