Product Specification

Version: 1.1
Issued: 29.09.2026
Applies to: Melissa Essential Oil
Scope: Commercial specification
Status: Approved

Indicative values. The values in this document are typical of the product, not the results of a particular batch. For batch-specific documentation and values (certificate of analysis, GC-MS report), contact us at **sales@bioform.bg** or +359 889 45 05 50.

DESCRIPTION

True melissa essential oil is one of the most sought-after and costly aromatics in the world, requiring several tonnes of fresh herb to produce a single kilogram of oil. Bioform's melissa oil is steam distilled from Melissa officinalis cultivated on our own certified organic plantations in the Rose Valley, ensuring full traceability and an authentic chemical profile free from adulteration — a critical consideration in a market where genuine melissa oil is exceptionally rare.

IDENTITY AND ORIGIN

Botanical Name	Melissa officinalis L.
Common Name	Lemon Balm Oil
Plant Part	Leaves and flowering tops
Extraction	Steam distillation
Origin	Bulgaria — Rose Valley, Village Tazha
