DOCUMENT CONTROL

Product Specification

Version: 1.1
Issued: 29.09.2026
Applies to: Sage Essential Oil
Scope: Commercial specification
Status: Approved

Indicative values. The values in this document are typical of the product, not the results of a particular batch. For batch-specific documentation and values (certificate of analysis, GC-MS report), contact us at **sales@bioform.bg** or +359 889 45 05 50.

DESCRIPTION

Sage essential oil has been valued since antiquity for its powerful aromatic character and wide range of applications, from culinary flavouring to traditional medicine. Bioform's sage oil is steam distilled from Salvia officinalis cultivated on certified organic land at our own plantations in Bulgaria's Rose Valley, near the village of Tazha. This hardy perennial herb — a member of the Lamiaceae family — produces an essential oil rich in thujone, camphor and 1,8-cineole, giving it the distinctively herbaceous, camphoraceous scent that has made it a cornerstone of the aromatic industry for centuries. The leaves are harvested at peak maturity and distilled on-site within hours to ensure optimal oil yield and the preservation of the oil's full chemical complexity.

IDENTITY AND ORIGIN

Botanical Name	Salvia officinalis L.
Common Name	Common Sage Oil, Dalmatian Sage Oil
Plant Part	Leaves
Extraction	Steam distillation
Origin	Bulgaria — Rose Valley, Village Tazha
Cultivation	Certified organic, own plantation

Appearance	Clear to pale yellow liquid
Aroma Profile	Fresh, herbaceous, camphoraceous with warm, slightly bitter undertones
CAS Number	8022-56-8
Certifications	EU Organic (Ceres), USDA NOP, ISO 9001, ISO 22000, GMP
Applications	Food & beverage, cosmetics, aromatherapy, pharmaceutical

STORAGE, SHELF LIFE AND PACKAGING

Shelf life	24 months General guidance for this product family, from the date of manufacture, in the original closed container stored as stated.
Storage conditions	Tightly closed, full containers in a cool (below 25 °C), dry, dark place, away from heat and ignition sources. Blanket part-filled containers with nitrogen.
Supply	Bulk B2B — enquire for available batch sizes and MOQ
Batch documents (on request)	COA, GC-MS analysis and pesticide screen, per batch on request

REMARK: The information in this document describes the product as supplied by Bioform Ltd and is given in good faith.

Place: 6160 Tazha, Bulgaria
Date: 29.09.2026
